

Lachlan Bradford

Web Developer

lochie.xyz/ M: +81 50 5532 2768 E: bradford.lachlan@gmail.com

Skills

- Javascript
 - Typescript
 - React + Redux
 - Firebase + Cloud Firestore
 - Node + Express
-

Education

MAR 2011 - JUL 2015: MONASH UNIVERSITY - Australia

Bachelor of Engineering (Honors)

Employment

AUG 2018 - PRESENT: Indeed - Tokyo

Design Technologist

- Working closely with designers and product managers to create rapid proof of concept prototypes
- Prototypes are subject to user-testing, live A/B testing and eventually transitioned to stable, production-ready code
- Using a variety of cutting-edge technologies, including React Hooks API, CSS-in-JS solutions and GraphQL

JUL 2018 - AUG 2018: Kokus.ai - Tokyo

Front-End Developer (Contractor)

- Built a chat-bot interface in a 1-month timeframe
- Formatted training data for the chat-bot
- Used React + Redux, IBM Watson and Google DialogueFlow

NOV 2017 - JUN 2018: Tabiko.ai - Tokyo

Product Owner

- Built one-to-many chat application for customer communication
- Responsible for database design and web application
- Used React + Redux, and Firebase real-time database
- Team of 3 developers, each supporting a different product in the ecosystem

SEP 2016 - NOV 2017: FUSION SYSTEMS - Tokyo

Front-End Developer

- Built work-shift management software for several restaurant chains in South East Asia
- Used React + Redux for advanced application state management
- Team of 6 developers
